

RAJNANDANI SINGH

Full Stack Developer (MERN) | Java | Data Structures & Algorithms

Mathura, Uttar Pradesh, India | rajnandani.singh_cs23@gla.ac.in | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js) and Java, with hands-on experience building and deploying RESTful APIs, JWT-based authentication, and CRUD applications following MVC architecture. Solved 150+ coding problems across LeetCode and GeeksforGeeks, with a strong foundation in Data Structures & Algorithms. Google Cloud certified in Generative AI, experienced with Git, GitHub, Postman, and MongoDB Compass. Seeking a Junior/Associate Full Stack Developer role to build and ship real-world web applications.

TECHNICAL SKILLS

- Programming Languages: Java (OOP), JavaScript (ES6+), SQL
- Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML5, CSS3, Responsive Web Design
- Backend Development: REST API Design & Development, CRUD Operations, MVC Architecture, JWT Authentication, bcryptjs, Database Integration, Deployment (Render)
- Core CS: Data Structures & Algorithms (Arrays, Strings, Hashing, Recursion, Trees, Sorting) — 150+ problems solved
- Tools & Platforms: Git, GitHub, Postman, VS Code, MongoDB Compass, Render
- Soft Skills: Effective Communication, Teamwork, Leadership, Problem Solving

PROJECTS

MusicNest | MERN Stack (MongoDB, Express.js, React.js, Node.js)

[Live Demo](#) | [GitHub](#)

- Built and deployed a full-stack music web application with a Node.js/Express.js REST API and MongoDB for persistent data storage.
- Designed backend routes and database schemas for users, songs, and playlists following MVC architecture, with a React.js frontend consuming the REST API; version-controlled on GitHub and deployed live on Render.

Task Manager API | Node.js, Express.js, MongoDB, Mongoose, JWT, bcryptjs

[Live Demo](#) | [API](#) | [GitHub](#)

- Built and deployed a secure backend task management application with full CRUD functionality, structured using an MVC-style folder architecture (routes, models, middleware).
- Implemented JWT-based user authentication and authorization with bcryptjs password hashing; connected REST APIs to MongoDB via Mongoose for schema-based data persistence, deployed on Render.

Personal Portfolio Website | HTML5, CSS3, JavaScript (ES6+)

[Live Site](#)

- Designed and developed a fully responsive, dark-themed portfolio with About, Skills, Education, Projects, Achievements, and Contact sections, plus a one-click resume download feature.
- Deployed live on GitHub Pages; showcases MERN projects including MusicNest and Task Manager API.

INTERNSHIP / TRAINING EXPERIENCE

Trainee — Job-Oriented Value-Added Course, GLA University, Mathura

June 2025 - July 2025

- Learned core web development fundamentals including HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB basics.
- Built and deployed an E-Commerce Website project, applying full-stack concepts learned during training.

EDUCATION

GLA University, Mathura — Bachelor of Technology in Computer Science

Expected June 2027

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development Certification — GLA University x Coding Blocks (June-July 2025)
- Generative AI Certification — Google Cloud, covering foundational generative AI concepts
- CodeChef Problem Solver — Silver Badge (topic-wise MCQ practice)
- LeetCode — 100+ problems solved; 50 Days Badge (2025)
- GeeksforGeeks — 48+ problems solved
- Cognizant Technoverse Hackathon 2026 — Certificate of Participation

CO-CURRICULAR ACTIVITIES

- Coordinated SRIJAN Cultural Fest (event logistics and team coordination) and participated in MAITREE Sports Fest, demonstrating discipline and teamwork.
