

RAJNANDANI SINGH

Full Stack Developer (MERN) | Java | Data Structures & Algorithms

Mathura, Uttar Pradesh, India | rajnandani.singh_cs@gla.ac.in | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer skilled in the MERN stack (MongoDB, Express.js, React.js, Node.js) and Java, with hands-on experience building RESTful APIs, JWT-based authentication, and CRUD applications following MVC architecture. Solved 150+ coding problems across LeetCode and GeeksforGeeks, with a strong foundation in Data Structures & Algorithms. Google Cloud certified in Generative AI, experienced with Git/GitHub, Postman, and MongoDB Compass. Seeking a Junior/Associate Full Stack Developer role to build real-world web applications.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript (ES6+), SQL

Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML5, CSS3, Responsive Web Design

Backend Development: REST API Design & Development, CRUD Operations, MVC Architecture, JWT Authentication, bcryptjs, Database Integration

Core CS: Data Structures & Algorithms (Arrays, Strings, Hashing, Recursion, Trees, Sorting) — 150+ coding problems solved

Tools & Platforms: Git, GitHub, Postman, VS Code, MongoDB Compass

Soft Skills: Effective Communication, Teamwork, Leadership, Problem Solving

PROJECTS

MusicNest | *MongoDB, Express.js, React.js, Node.js*

- Building a full-stack music web application with a Node.js/Express.js REST API and MongoDB for persistent data storage.
- Designed and implemented backend routes and database schemas for core features (users, songs/playlists) following MVC architecture; code version-controlled on GitHub.
- Currently integrating the React.js frontend to consume the REST API; live deployment in progress.

GitHub: github.com/Rajnandanisingh6/MusicNest

Task Manager API | *Node.js, Express.js, MongoDB, Mongoose, JWT, bcryptjs*

- Built a secure backend task management application with full CRUD functionality, structured using an MVC-style folder architecture (routes, models, middleware).
- Implemented JWT-based user authentication and authorization, with bcryptjs for password hashing to protect user accounts.
- Designed and connected REST APIs to a MongoDB database via Mongoose for reliable, schema-based data persistence.

GitHub: github.com/Rajnandanisingh6/Mini_Project_2026

Personal Portfolio Website | *HTML5, CSS3, JavaScript (ES6+)*

- Designed and developed a fully responsive personal portfolio with About, Skills, Education, Projects, and Contact sections.
- Implemented a dark-themed, mobile-responsive UI with vanilla JavaScript for dynamic interactions and a one-click resume download feature.
- Deployed live on GitHub Pages; showcases MERN projects including MusicNest and Task Manager API.

INTERSHIP / TRAINING EXPERIENCE

Trainee — Job-Oriented Value-Added Course, GLA University, Mathura

June 2025 – July 2025

- Learned core web development fundamentals including HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB basics.
- Built and deployed an E-Commerce Website project, applying full-stack concepts learned during training.

EDUCATION

GLA University, Mathura — Bachelor of Technology in Computer Science

Expected June 2027

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development Certification — GLA University x Coding Blocks (June–July 2025).
- Generative AI Certification — Google Cloud, covering foundational generative AI concepts.
- CodeChef Problem Solver — Silver Badge (topic-wise MCQ practice).
- LeetCode — 100+ problems solved; 50 Days Badge (2025).
- GeeksforGeeks — 48+ problems solved.
- Cognizant Technoverse Hackathon 2026 — Certificate of Participation.

CO-CURRICULAR ACTIVITIES

- Coordinated SRIJAN Cultural Fest, managing event logistics and team coordination.
- Participated in MAITREE Sports Fest, demonstrating discipline and teamwork.
